PROFILE

FRONT-END WEB DEVELOPER & INTEGRATOR

A dynamic and diploma-holding Web Front-End Developer, my solid mastery of key programming languages and passion for user experience position me as a professional ready to tackle stimulating challenges. Seeking opportunities within an innovative team to implement my skills through a creative and user-centered approach.

- Front-end web development
- Search Engine Optimization (SEO)
- User Experience (UI/UX) Design
- Website Maintenance and Testing

PROFESSIONAL EXPERIENCE

Freelance Web Developer

Independent | 2025 - Present

Developed a comprehensive personal portfolio to launch freelance web development services. Focusing on creating a robust showcase of technical skills and design capabilities to attract potential clients.

Head of Design

CreatLinux, London | 2017 - 2019

Co-founder of a blockchain/cryptocurrency startup. Involved in recruitment, design validation, development, and organizational planning. Balanced diverse roles from team building to strategic direction within a dynamic startup environment.

EDUCATION

Web Developer & Integrator Diploma

OpenClassrooms | 2023-2024

Acquired skills through 12 professionally validated web development projects. Training focused on CSS/SCSS, HTML, JavaScript, Search Engine Optimization (SEO), and React/Redux.

Scientific Baccalaureate

Engineering Sciences | 2012 - 2013

Scientific Baccalaureate (specialization in Engineering Sciences).

ABOUT ME

Music

Guitar, Piano, Drum Pad, and Digital Audio Workstation (advanced skills in FL Studio and extensive experience with various audio plugins).
